Carmen has been translating for us for several years now. She has translated professional, technical, marketing, legal and popular texts to and from German language. She has also interpreted at several business events. With her conscientious, accurate and dedicated work she is a great contribution to our agency and also for an undisturbed and successful work of our agency.

She has a positive attitude towards work, and translation is her joy. She is a reliable person, and became an indispensable co-worker for us, who is ready to take on a big job and complete it with quality, at any time and at once.

We are fortunate to have the opportunity to work with Carmen and we honestly hope to continue this successful collaboration in the future as well.
